

# Mhiship Community Skills Development and Empowerment Center Project

## Background

The Mhiship community is located in Pankshin Local Government Area of Plateau State, Nigeria. The people are predominantly farmers, artisans, and businessmen/women. The community hosts three major government secondary schools and a few other private schools.

More so, the community has three major markets which operate on Monday, Wednesday and Thursday and most commodities that are sold in the markets are agricultural produce. The demography with the highest population in the community are young people between the age of 18 – 35 years who graduated from secondary school or dropped out of school. At the national front, the Nigeria Bureau of Statistics in 2023, ranked unemployment among young people who are looking for work but are currently unemployed at 5.84 percent, which has been observed to be a high prevalence of out-of-school cases, joblessness, rural-urban migration and those indulging in social vices, leading to unproductiveness and truancy.

As such, it is consequent upon the above, that the scope of the Mhiship Community Skills Development and Empowerment Center focuses on equipping the youth of Mhiship and other adjoining communities with common socio-cultural traits and identities, with necessary and relevant skills that are crucial for them to excel where formal education may not be tenable. It also aims to bridge the gap between knowledge and its practical application as can be generally observed in the dearth of technical knowledge deficiencies among young people.

## Goal

To establish a skills development hub for youths' empowerment and employability.

## Objectives

To train and equip youths with relevant skills to be solution driven in Nigeria.

To link skilled and empowered youth to market and financial facilities.

To mentor young people in business development modelling and practice.

## ICT center:

Equip a Computer Based Training Center (CBT) for training in contemporary Information Technological (IT) skills development to upskill the youth to meet up with current fast-paced global development objectives.

## Agricultural extension services:

Training in agro-extension services will be provided to farmers by trained personnel so that they are kept abreast of modern farming methods and practices.

## Fashion Design:

To train the youth and women in modern fashion trends and methods.

## Welding and fabrication:

Provide Technical hands-on skills on modern fabrication and exposing participants to the latest equipment in the field.

## Carpentry/ Interior Decoration:

Training will be provided on material selection and handling of tools that pertain to carpentry and other associated services.

## Hair dressing and salon:

Training will be provided for hairdressers and barbers so that they can acquire life skills for their own personal development.

## Auto-mechanical conditioning and repairs:

Provide training on maintenance and repairs of auto systems as it pertains to the engine, air conditioning, upholstery, body work, painting, wheel balance and alignment, etc.

## Electrical/electronic repairs:

Training will be provided on maintenance and repairs of electrical and electronic systems.

## Audio & visualization:

Training will be provided on still photography, videography, film production and graphic designs.

## Conclusion

- The world as it is today has grown beyond the mere presentation of certificates when one is in search of life opportunities; it is now about what you can do. The case of the Mhiship citizen is not an exception.
- As we struggle to move our people out of the dark ages, it is expedient that we equip them properly to face contemporary challenges that will place them at a level of advantage in the very ferocious space of scouting for opportunities.
- As we aspire to build our youths, we are believers that we, by these efforts will also be partners in the growth and development of Plateau State and Nigeria at large by the provisioning of a skilled workforce, thereby bridging the statistics on our unemployment and underemployment rating.

## NATIONAL ANTHEM

Nigeria, we hail thee,  
Our own dear native land,  
Though tribe and tongue may differ,  
In brotherhood, we stand,  
Nigerians all, and proud to serve  
Our sovereign Motherland.  
Our flag shall be a symbol  
That truth and justice reign,  
In peace or battle honour'd,  
And this we count as gain,  
To hand on to our children  
A banner without stain.  
O God of all creation,  
Grant this our one request,  
Help us to build a nation  
Where no man is oppressed,  
And so with peace and  
plenty  
Nigeria may be blessed.

## National Pledge

I pledge to Nigeria my  
Country  
To be faithful, loyal and  
honest  
To serve Nigeria with all  
my strength  
To defend her unity  
And uphold her honour  
and glory  
So help me God.

Our community's strong values of family, respect for elders, and collective support are a shining examples of the beauty of Nigerian diversity.

As we come together to celebrate our unique customs, music, dance, and art, we acknowledge the importance of preserving our cultural identity and promoting unity among our people. We recognize the significant contributions of our ancestors who have passed down our traditions and values through generations.

May this Cultural Day celebration be filled with joy, laughter, and a deeper appreciation for our heritage. May we continue to uphold the values of kindness, empathy, and generosity that have always defined our Miship community. I wish us continued peace, prosperity, and progress. !
